+Order Tine Rake dethatcher from your Grasshopper dealer.

*Model 479 for use with electric or hydraulic lift deck; otherwise, use 470 or 472.

^Requires drilling into mower frame.

There are two rake models for most walk-behind mowers, 470 and 472. The 472 has longer support arm channels.

The width of the rake is shown in the last two digits: /36, /46, /60

Heavy duty 60" rakes are designated with an "H" preceeding Tine Rake model e.g. H478/60

Above mount bars and rake models assume machines without bagger/weights/third party accessories unless noted.

Models stated "with bagger" are considered OEM collectors, not third party collectors.
